SUBJECT

:

[redacted] Reassessment Study

1. This agency is satisfied that the working group is addressing the proper issues and that it should produce a useful evaluation of the programmed and alternative mixes. [redacted]

2. There are several other questions which are appropriate for the steering group to consider and which we might be able to discuss at the next meeting. For example, what will the Intelligence Community have to do to ensure that enhancements included in the alternative mix would have a high likelihood of reaching deployment? And what will be the impact of the different IOC dates of the components in the alternative mix on the collection of various data? [redacted]
